Corrigendum, if any would appear on the www.eprocure.gov.in/eprocure/app and IIT Dharwad website. IIT Dharwad reserves the right to reject any or all the tenders in part or full without assigning any reasons thereof. Online submission of Bids through Central Public Procurement Portal(<http://www.eprocure.gov.in/eprocure/app>) is mandatory.

Manual/Offline bids/documents shall not be accepted under any circumstances.

INSTRUCTIONS FOR ONLINE APPLICATIONS SUBMISSION

The Vendors are required to submit soft copies of their application for Enlistment electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the vendors in registering on the CPP Portal, prepare their applications in accordance with the requirements and submitting their applications online on the CPP Portal. More information useful for submitting online applications on the CPP Portal may be obtained at: <https://eprocure.gov.in/eprocure/app>.

REGISTRATION

1. Vendors are required to enroll on the e-Procurement module of the Central Public Procurement Portal ([URL: https://eprocure.gov.in/eprocure/app](https://eprocure.gov.in/eprocure/app)) by clicking on the link “Online vendor Enrollment” on the CPP Portal which is free of charge.
2. As part of the enrolment process, the vendors will be required to choose a unique username and assign a password for their accounts.
3. Vendors are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
4. Upon enrolment, the vendors will be required to register their valid Digital Signature Certificate (Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / nCode / eMudhra etc.), with their profile.
5. Only one valid DSC should be registered by a vendor. Please note that the vendors are responsible to ensure that they do not lend their DSC's to others which may lead to misuse.
6. Vendor then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC/e-Token.

SEARCHING FOR TENDER DOCUMENTS

1. There are various search options built in the CPP Portal, to facilitate vendors to search for active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the vendors may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
2. Once the vendors have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective ‘My Tenders’ folder. This would enable the CPP Portal to intimate the vendors through SMS / email in case there is any corrigendum issued to the tender document.
3. The Vendor should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification/help from the Helpdesk.

PREPARATION OF APPLICATIONS

1. Vendors should consider any corrigendum published on the tender document before submitting their application.
2. Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each document that need to be submitted. Any deviations from these may lead to rejection of the bid.
3. Vendor, in advance, should get ready the bid documents to be submitted as indicated in the schedule and generally, they can be in PDF format. Bid documents may be scanned with 100 dpi with black and white options which help in reducing size of the scanned document.
4. To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the vendors.
5. Vendors can use “My Space” or “Other Important Documents” area available to them to upload such documents. These documents may be directly submitted from the “My Space” area while submitting an application and need not be uploaded again and again. This will lead to a reduction in the time required for the bid submission process.

Note: My Documents space is only a repository given to the vendors to ease the uploading process. If Vendor has uploaded his Documents in My Documents space, this does not automatically ensure these Documents being part of application.

SUBMISSION OF APPLICATIONS

1. Vendor should login to the site well in advance for bid submission so that they can upload the bid in time i.e. on or before the bid submission time. Vendor will be responsible for any delay due to other issues.
2. The vendor has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
3. Vendor has to select the payment option as “offline” to pay the tender fee as applicable and enter details of the instrument.
4. The server time (which is displayed on the vendors’ dashboard) will be considered as the standard time for referencing the deadlines for submission of the applications by the vendors, opening of bids etc. The vendors should follow this time during bid submission.
5. All the documents being submitted by the vendors would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized people until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128-bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to a symmetric encryption using buyers/bid opener’s public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized Officials.

6. The uploaded tender documents become readable only after the tender opening by the authorized officials.
7. Upon the successful and timely submission of bids (i.e. after Clicking “Freeze Bid Submission” in the portal), the portal will give a successful bid submission message & a bid summary will be displayed with the bid No. and the date & time of submission of the bid with all other relevant details.
8. The application summary has to be printed and kept as an acknowledgement of the submission of the application. This acknowledgement may be used asana to try to pass for anybid opening meetings.

ASSISTANCE TO VENDORS

1. Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.
2. Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed at the 24x7 CPP Portal Helpdesk.
